well used brings happy death.*

Baby Moulton

This memorial website was created by Tara St. Cyr to remember our dearest Baby Moulton who passed away on July 5,2007. You will live forever in our memories and hearts. May your spirit run free just as it was meant to be.

We love you and miss you always.

When we think of you, we will remember you playing, happy and cuddling. Until we see you again, smile down on us once in awhile.. and let us know you are doing okay. Heidi, Bill, Eric and Sammy will need your smiles... especially when they miss you so much. God Bless. Rest little one. Love, Auntie Tara.

The image features a textured, light brown background with two roses. One rose is smaller and positioned higher and to the left, while the other is larger and more open, positioned lower and to the right. The word "Gallery" is written in a white, elegant cursive font, centered between the two roses.

The image features two roses, one smaller and one larger, positioned in the upper right quadrant. They are rendered in a light, almost ethereal tone against a textured, olive-green background. The roses appear to be made of a delicate material, possibly paper or fabric, with soft lighting that gives them a gentle, glowing appearance. The overall aesthetic is serene and commemorative.

Remembering

July 27, 2007

It is hard to remember sometimes that things happen for a reason, and the loss of a love one makes it that much harder to understand. Remembering them as often as we can seems to be the way we keep them alive in our hearts and prayers. Afterall, it is not how long we spend here, but the lives we touch along the way. The impact that it has along the way is what we truly remember. It could be the touch of their hair, the smile in their eyes... or just little kisses that we remember, but it is there. It is there. =) Heidi, may the love that you have for Baby last a lifetime. God Bless you my friend.

Love, Tara

May the angels bless Baby. Her memory will carry on in hearts.

What a beautiful girl. What a joy to have around. There will be a void in our hearts forever. May our memories be some comfort to those who knew and loved baby. I will miss you Baby. Love, Auntie Tara

Shared Memoirs

all the gray you turned into colors...

Heidi Moulton

Baby Ann Moulton was born June 15, 1991 in Plaistow, NH. When she was just 2 months old she came meowing at the door of Bill Moulton. He took her in. She was very tiny and full of fleas so she lived in his cellar for a couple of days before we took her to the vet and had her checked and washed. Then she became officially ours. Next came time for Bill and I to name her. He wanted to name her Babe but she was too cute for that so we named her Baby. It fit her perfectly. She was just like our baby. She was a gentle kitten. I would sleep over Bill's house and she would sleep right next to us every night. She would sit on our laps every day and watch T.V. She never used her claws on anyone. They just came out when she was playing with her toys. She loved to play with Bill's fishing pole. He would put a rubber worm on the end and throw it. She would bring it back. She loved to play right up to the very end. When Bill and I got married we had pictures of her taken for our wedding album. Then when we had our boys she used to sleep under their beds when they were babies. Just to make sure they were o.k.

She loved to eat seafood, chicken and steak. She loved to sleep wherever we were. She just loved to love.

She came into our lives unexpectedly and left our lives the same way.

I truly believe she was a gift from God.

We will miss her always.

In loving memory,

Her family Heidi, Bill Eric and Sammy

Tara

I remember, that Heidi always told me how Baby would protect Eric and Sammy when they were just little babies. She would watch over them when they slept. She would never let any harm come to the boys. She loved them so much. She was a great friend to anyone who knew her. She was shy at times. But she knew how much her family loved her.

The background is a textured, mottled olive-green color. In the upper right quadrant, there are two roses. The one on the left is smaller and more tightly curled, while the one on the right is larger and more fully bloomed. Both roses are rendered in a light, almost white tone, making them stand out against the darker background.
